

## FLOAT POOL STAFF SCHEDULING

### OPTIMIZE FLOAT POOL STAFF AVAILABILITY - FILL MORE OPEN SHIFTS

Float Pool Staff offer a valuable option for filling critical, open shifts. The challenge most Hospitals face is the balancing act of efficiently matching an Employee's availability to the specific requirements of multiple shift openings. A never-ending, manual scheduling process consisting of spreadsheets, emails, and phone calls leaves staff unscheduled and shifts unfilled, leading to Employee dissatisfaction or worse, a decrease in the quality of patient care.

As a secure cloud-hosted solution, Schedule360 supports real-time scheduling and communication with Float Pool Staff online 24/7. Managers and Schedulers have Float Pool Employee scheduling information at their fingertips and always know each Employee's qualifications, credentials and availability.
