

## **SCHEDULE360™ Overview**

### ***WE KNOW SCHEDULING***

*Schedule360™ has been developed by scheduling experts who are exclusively focused on helping you simplify scheduling, reduce labor costs and ensure compliance. We have worked for more than a decade and listened to our valued customers to perfect the Schedule360 Employee Scheduling and Labor Management Applications and make them the most robust, easy-to-use and flexible solutions available. Our secure cloud-hosted applications use the latest Web and mobile technologies to keep you on the leading edge of scheduling technology.*

### ***Manage Employee Schedules Your Way***

At Schedule360, we do not subscribe to the “one size fits all” approach to application development. We developed our solution with unmatched configurability and scalability so it fits the way YOU work, without compromise. Schedule360 can be configured to support virtually any type of business and scheduling requirement. It can even be configured with different setups for each department or group within your organization.

### ***Affordable Monthly Subscription***

Schedule360 is available at an affordable monthly subscription and includes setup, 24/7 support and online training.

### **The Schedule360 Advantage**

- » *Configures to how YOU work*
- » *Unlimited scalability*
- » *Web-based anywhere access*
- » *Secure cloud-hosted convenience*
- » *True employee self-scheduling*
- » *Easy to learn and use*
- » *Affordable monthly subscription*
- » *Set-up and online training included*
- » *24/7 Customer support*

## ***Simplify Employee Scheduling***

Schedule360™ is a secure cloud-hosted application that allows you to communicate with your employees in real time using the latest Web and mobile technologies. Scheduling can now be completed weeks in advance through an automated process that includes employee self-scheduling and mobile apps. Employees on recurring schedules are locked down immediately and open positions can be filled through employee self-scheduling or auto scheduling algorithms. Last minute needs can be communicated instantly via e-mail, text message or pager message.

## ***Getting Started Is Easy – We Do All The Work!***

Because Schedule360 is a secure cloud-hosted application, there is nothing to download or install. We assign a dedicated Schedule360 representative who works with you to understand your unique scheduling needs, provides expert consultation and manages your setup with our IT, training and administrative teams.

## ***Outstanding Customer Support – Live Operators 24/7***

Schedule360 includes online training and the industry's best customer support. Our unique approach to training allows us to train from 100 staff members to thousands very rapidly. Interactive training applications and tutorials are available online. We prominently display our toll-free number because our customer support team is available to assist you 24/7.

## ***Save Time & Reduce Labor Costs***
